SUBJECT: **DEPARTMENT OF HEALTH SERVICES' (DHS)
FISCAL OUTLOOK (BOARD AGENDA, ITEM S-2
JUNE 19, 2012)**

This is to provide DHS' fiscal overview for Fiscal Year (FY) 2011-12 (Attachment I), updated since our last Budget Committee of the Whole report to the Board on March 20, 2012. As of June 12, 2012, the Department is projecting a surplus for FY 2011-12 of \$9.4 million (see Attachment I).

The Department's current projections, however, may be significantly impacted by the upcoming ruling expected from the Supreme Court by the end of this month on the constitutionality of the Affordable Care Act (ACA). There are various rulings the Supreme Court could make, each having potentially different ramifications and impacts on the Department. The possible rulings by the Supreme Court include, for example, upholding the ACA in its entirety, striking it down in its entirety, or upholding some parts and striking down others. Once the ruling is published, the Department will work with the Chief Executive Office and County Counsel to provide the Board with our best understanding of how the ruling is expected to impact the Department's programs and finances. The Department will also work closely with the State to initiate and support efforts to minimize as much as possible any negative impacts on the Department.

Attachment II provides information on key workload indicators, for example, days and visits, by facility, comparing FY 2010-11 to FY 2011-12.

The Department is projecting a \$52.7 million shortfall in FY 2012-13 (Attachment III), primarily due to increased employee benefit costs. To address the anticipated shortfall, DHS continues to work with the Department of Public Social Services on a proposal to increase the In-Home Supportive Services health plan rates as a partial offset to the increasing cost of medical services to enrollees. If the rate increase is approved for FY 2012-13 with a projected effective date of September 1, 2012, the Department estimates additional revenue of approximately \$57.4 million.

Attachment IV lists potential items that could impact the fiscal forecast for FYs 2011-12 and 2012-13. One of the items is the transition of individuals currently receiving services funded by the Ryan White program to coverage

To ensure access to high-quality, patient-centered, cost-effective health care to Los Angeles County residents through direct services at DHS facilities and through collaboration with community and university partners.

under the Healthy Way LA program. A waiver amendment to address these transition issues was submitted to the Centers for Medicare and Medicaid Services for approval but remains pending at this time.

The Department continues its efforts to adjust to the changes taking place in the health care marketplace to ensure patients receive the care they need in appropriate care venues. At the same time, we continue our efforts to maximize all available revenues to ensure long-term viability. We will continue to provide reports to the Board on any material changes to the Department's fiscal outlook.

If you have any questions or need additional information, please let me know.

Notes:

- (A) Includes unreimbursed estimated costs of: (1) Sheriff's Department \$36.1 million - for providing inpatient, outpatient, and specialty services to inmates in County jails, and (2) Departments of Probation and Coroner \$0.9 million - for power plant's maintenance service costs provided to both Departments. In addition, DHS FY 11-12 Capital Projects Budget (not reflected on this schedule) includes \$2.7 million for Departments of Probation's and Coroner's share of the Central Plant one-time upgrade to be in compliance with the South Coast Air Quality Management District Rule 1146.
- (B) Includes Multi-Service Ambulatory Care Centers, Comprehensive & Community Health Centers, Community Partners, Office of Managed Care, and Ambulatory Care's administrative units.
- (C) Juvenile Court Health Services provides medical services to Probation youth who are under the responsibility of the Department of Probation. The current forecast reflects \$4.4 million (net of \$0.2 million projected shortfall of Vehicle License Fee reflected in Other Revenues) unreimbursed net cost from Probation for FY 11-12. The \$1.8 million reduction from the budgeted funding gap of \$6.2 million from Probation is primarily due to hiring delays for the Department of Justice Camp Settlement Agreement and under-realized pharmaceutical expenses.
- (D) Includes the budget adjustments approved by the Board of Supervisors on February 28, 2012 to reallocate/realign appropriations within DHS.
- (E) Includes Other Charges, Capital Assets, and Operating Transfer Out, and net of Intrafund Transfers. The Other Charges include intergovernmental transfers for Managed Care Rate Supplement and Delivery System Reform Incentive Pool revenues.
- (F) Includes capital projects' surplus of \$3.9 million due to implementation delays.
- (G) Includes Vehicle License Fee deficit of \$21.3 million.
- (H) The Net Cost of \$1,007.2 million is comprised of County Contribution, Vehicle License Fee, Sales Tax, Measure B, Tobacco Settlement fund, and DHS' Fund Balance.

(16) Total	\$ (43.3)

Notes:

- (A) This includes projected unspent funds for Harbor-UCLA Surgery/Emergency Department of \$4.1 million (line 6 above) and capital projects of \$3.9 million (line 10 above).
- (B) This does not include necessary system improvements/investments such as Electronic Health Record information system and standardized nurse staffing plan including compliance with the Assembly Bill (AB) 394 requirements for meals and breaks coverage. The Department is currently refining its plan, estimating costs, and determining funding solutions for these items. The Department is also working with the Chief Executive Office to explore financing options for the Electronic Health Record information system.
- (C) This reflects projected increased employer contribution rates for County Retirement based on the downturn in the investment market. In addition, the reduced County matching contribution percentages are resumed to 4% effective FY 2012-13 (which had been reduced to 2% or 3%, depending on the cafeteria health plans of the participating employees, for both Horizons and Savings Plans in FY 2011-12). Also reflects changes in estimates primarily for variable employee benefits based on historical trends and year-to-date actual.
- (D) This reflects an incremental budgetary change of \$12.2 million for Year 2, and \$4.1 million to be carried over from Year 1 (FY 2011-12) due to implementation delays. The total costs through FY 2017-18 are projected to be \$58.4 million.
- (E) The total costs through FY 2017-18 are projected to be \$30.3 million.
- (F) The projected intergovernmental transfer is \$24.2 million. Of this amount, \$17.7 million will be funded by Tobacco Settlement fund and \$6.5 million by existing resources within DHS' FY 2012-13 Recommended Budget. The associated revenue is \$40.6 million.
- (G) In order to maintain the project schedule and prepare for occupancy when the new facility is completed, information system network equipment and end-user devices will need to be purchased and set up in FY 2012-13. The facility is also working on a complete equipment list, with the majority of the equipment expected to be procured in FY 2013-14.
